

National Nanotechnology Coordinated Infrastructure Facility User Profile Data Form

This form requests user profile data for users of NNCI facilities, partially supported by grants from the National Science Foundation.

*This information is requested for the purpose of fulfilling our responsibility of reporting to the NSF information about the use of our facility and its users. **Demographic information is optional, and there is no consequence for not providing it. If you do not provide other information requested, this facility may deny you access to its services.***

First Name/Middle Init.

Last Name

Address

City, State, Zip Code

Phone (primary)

Email:

Demographics (standard NSF categories)

Race

Gender

Ethnicity

Disability

Project Principal Investigator

Institution/Company

Department (if acad)

Institution/Company type

Primary NNCI Site

Type of Use (check all that apply):

- Research lab use (research project use)
- Research lab PI (principal investigator who may also be a user)
- Educational use (lab use associated with educ/training - not research)
- Educational outreach (formal/informal activity directed toward public awareness - not research)
- SEI Activity (SEI resource use)
- HES Activity (Health, Environment, & Safety resource use)

Position

Primary Research Funding

If 'Other federal' please describe here

Technical Field of your research (not necessarily your home department)

Does your work encompass any aspects of "nanobio"

Nanobio is the biological/medical application of nanotechnology. Examples include:
Biosensors; Microfluidic/other devices for biomedical applications; Nanostructured films for biomolecule attachment or sensing; Templated cell growth on microstructured substrate; Nanoparticles for biomedical imaging, drug delivery, thermal therapies, environmental, dental, or veterinary applications.

Site Use (primarily)
